

Christ College, Brecon

Founded in 1541, Christ College Brecon offers a distinctive education for boys and girls aged 4–18 in the heart of the Brecon Beacons National Park. Known for its strong pastoral care and small class sizes, the school combines academic rigour with a powerful focus on character development. Programmes like the Beacon outdoor leadership course and the Curriculum for Life set pupils up for future success. Overseas boarders are warmly welcomed into this close-knit, values-driven community with stunning natural surroundings.

What challenges has Password helped your admissions team overcome since adoption?

“Password’s system of online assessment is great for ease of use and speed of results. It’s incredibly quick and efficient as a means of assessing our international applicants taking tests overseas. Previously, with in-house entrance exams to send out and mark, we were struggling with how long it took and this slowed our responsiveness and the delayed turnaround of international applications. Since working with Password, we no longer have this problem, as tests can be delivered securely any time, anywhere, and results are returned very quickly.”

How would you describe your experience of working with the Password team?

“Smooth and efficient! The communications with staff at Password are excellent, and our main contact, Helen, is friendly and a pleasure to work with.”

About the contributor

Gemma Roberts is Director of Marketing and Admissions at Christ College Brecon. A native of the town, she brings design and marketing experience from both the independent and state education sectors to her role. She previously worked at an academy trust in London and in the marketing and communications team at City of London Freeman’s School in Surrey. Returning to Brecon in 2024, she now leads on promoting Christ College to families in the UK and overseas, combining sector expertise with local insight.
