# Trent College

Trent College is a thriving co-educational day and boarding school for pupils aged 3–18. With a rich heritage and a forward-looking ethos, the school offers a broad academic curriculum including GCSEs and A Levels, supported by a strong focus on character development and individual potential. Trent College places high value on pastoral care, ensuring every pupil feels known and supported, while offering extensive co-curricular opportunities across sport, music, drama and outdoor education. Its inclusive community welcomes boarders from the UK and overseas.

## Why did Trent College choose Password Pupil tests to assess international applicants?

“We wanted to ensure that our applicants are receiving communications as quickly as possible and to streamline our admissions processes. Using Password tests reduces the time it takes getting teachers to mark an applicant’s work, especially over the holiday period. Having Password tests marked online and so efficiently allows for us to progress applicants quickly through our processes.”

## What challenges has Password helped Trent College overcome?

“Password has allowed a more flexible approach to sitting assessments, particularly when working with applicants who are overseas at the time of their entrance tests. We can run Password tests at times that suit our applicants, rather than relying on having an invigilator available in normal office hours. We are confident that Password offers standardisation and the results assist our Academic Deputy Head to timetable prospective pupils appropriately with peers of a similar language level.”

## How would you describe your experience of working with Password?

“It has always amazed me how responsive the Password team have been. On a small number of occasions, where there has been an issue with logging in or with a connection drop, a quick email and the team generally respond within half an hour.”

### About the contributor

*Karlee Wildgoose is Admissions Officer at Trent College. Her role focusses on applications from Year 7 to Year 12. This includes students from a variety of nationalities.*
