Chigwell School

Established in 1629, Chigwell School provides a balanced, co-educational environment for pupils aged 4–18. Situated on a 100-acre campus near Epping Forest, just 35 minutes from central London, the school combines academic excellence with a nurturing community. Recognised as The Sunday Times Independent Secondary School of the Year 2025 for East Anglia, Chigwell offers a rich curriculum and diverse co-curricular activities. International Sixth Form boarders are welcomed into a supportive environment that prepares them for top universities and future success.

Why did Chigwell School choose to use Password Pupil tests to assess your international applicants?

“We wanted an assessment which could test our international applicants’ academic calibre and which we could tailor to our own requirements. For international students applying to take Mathematics, for example, our Head of Sixth Form was able to choose content most suited to evaluating the range and breadth of mathematical knowledge we expect students to have achieved by this point. The quality of Password’s academic English language tests also suited our entrance assessment process, which is designed to identify students who will thrive in our academic and co-curricular environment.”

About the contributor

Angela Patrikios, Director of Marketing and Admissions at Chigwell School has dedicated over 16 years to the field of education. She is deeply committed to advocating for the importance of education and creating opportunities for all pupils to thrive.
