Ermitage International School, Paris

Located just 20 minutes from Paris by train, Ermitage is a K-12 co-educational day and boarding school situated in beautiful surroundings in Maisons-Lafitte. The school has an innovative pedagogical approach, offering the French baccalaureate path as a bilingual programme alongside the International Baccalaureate MYP and DP. The school has an emphasis on multilingualism and a strong academic foundation, preparing students for success with a wider understanding of the world. It is a UNESCO and Round Square member school, with strong pastoral care and a diverse student body.

Why did Ermitage International School choose Password Pupil tests to assess international applicants?

"We wanted a versatile, automated test that gave us a quick result and did not take too much time to compete, but gave us an accurate picture of our applicants' level of academic English language before they join the school. This allows us to manage parents' expectations and help them budget, for example, if extra English tuition is indicated. It also allows us to plan better learning pathways, since we have an objective result showing each learner's level of English as the benchmark."

How would you describe your experience of working with Password?

"The test is easy to administer and we are really pleased that it has helped reduce the time taken between a student applying and our decision being made. It's been a really worthwhile investment!"

About the contributor

Melanie Doherty is the Director of Admissions at Ermitage International School of Paris. She is enjoying her new role working with students and their families, as part of a highly skilled, caring and committed team at the school.
