# City University Qatar

Located in Lusail's Smart City, CUQ Ulster University is a higher education institution in Qatar offering more than 20 UK degrees and diplomas, all licensed by the Ministry of Education and Higher Education.

City University Qatar is a dynamic institution committed to excellence in education, research, and innovation. Empowering students with the skills, knowledge, and creativity to thrive in a changing world.

## How are you using Password tests?

At CUQ-Ulster, we use the Password English Language Test as a proficiency test to determine whether students meet the minimum English language entry requirements for admission to the university. This ensures that all incoming students are adequately prepared to succeed in an academic environment where English is the medium of instruction.

## Why did you choose to work with Password?

The Password Test was selected as part of our strategic partnership with Ulster University. We specifically chose it for its user-friendly administration, reliability, and the quick turnaround time for results. It provides an efficient and accurate method of assessing language proficiency, which aligns with our commitment to maintaining high academic standards.

## What has your experience been working with Password?

Our experience with the Password Testing platform has been excellent. The system is straightforward to use, both for our staff and for students. The response time for results is prompt, and the support we receive from the Password team is outstanding. Their administrators are professional, responsive, and always willing to assist the CUQ team with any queries or technical support.

**Rahul Kallampad, Procurement Officer at City University Qatar-Ulster**
