University of Tunis Carthage

Located in Tunisia's dynamic capital, the University of Tunis Carthage offers a distinctive combination of personalised learning and global opportunities.

The University of Tunis Carthage offers a wide range of programs in the fields of architecture, business, and interior design.

In addition to a personalized approach and hands-on education, UTC provides students with the largest and prettiest campus in Tunisia.

How are you using Password tests?

At UTC, we use the Password English Language Test to assess students' language proficiency and ensure they meet the required standards for academic success. This allows us to place students in the appropriate programmes that we offer at UTC and provide any necessary support.

Why did you choose to work with Password?

We chose Password Testing because of its reliability, ease of administration, and alignment with international academic standards and it is recognised by NCUK, further validating its credibility. The test provides a comprehensive assessment of students' reading, writing, listening, and speaking skills, making it an effective tool for admissions and placement.

What has your experience been working with Password?

Our experience with Password testing has been very positive. Its secure online format, combined with the professional support from the Password team, makes it a seamless and efficient solution for our institution.

Yasmine Ben Ayed , Academic Manager at University of Tunis Carthage
