

# You are cordially invited to an afternoon of industry updates, networking and celebration

During the past decade, the Password Skills test has been used by hundreds of universities in the UK and beyond to support international student recruitment and retention. Since 2022, the same test has also been used to support international students directly in its “Plus” form and, following widespread recognition of our innovative and secure at-home delivery method, Password Skills Plus is now widely accepted by UK universities as well as many other HEIs all over the world and has become our flagship test.

This event is a chance to mark the journey we have shared with our partners and to find out about our most recent development, Password Partners Plus, which brings together the advantages of university branding and exclusive results reporting with outsourced secure, at-home delivery direct to students. Our new service to universities offers the Password Skills Plus test with:

- University branding
- Exclusive results reporting
- All invigilation, administration and ID checking outsourced to Password
- Test fee collection from students with no cost to our partners

There will also be a chance to catch up on the recent HOELT news and to find out about the new English Language Standard Authority (ELSA).

The afternoon will be hosted by the Royal College of Art at their Battersea campus in London, and we are delighted that Siân Williams Lund, Head of Academic Skills, will share a few words about how Password Partners Plus is already working for the College. There will also be a chance to connect with colleagues old and new, and to enjoy drinks and nibbles in good company.

**Date:** Thursday 23<sup>rd</sup> October 2025

**Time:** From 2pm

**Location:** Royal College of Art, Studio Building, 1 Hester Road, Battersea, London, SW11 4AY
